

SIDEWALK SURPRISES

A Madison Children's Museum ROADSHOW PROJECT
creating temporary public art in collaboration with the City of Madison

Italy: *Campana*

Source: *Hopscotch Around the World* by Mary D. Lankford

The word peninsula means "almost an island." This is a very accurate description of Italy, the European country shaped like a boot and surrounded by the Mediterranean Sea. The sunny, mild climate of Italy allows children to play hopscotch outdoors for many months of the year. The puck is usually a stone or a bottle cap. The word *campana* means "bell."

Instructions:

1. Throw the puck into box 1.
2. Hop over box 1 into box 2.
3. Jump into boxes 12 and 3, with one foot in each, and jump again into boxes 4 and 11.
4. Continue to hop on the same foot to box 14, following the numbers. Hop back to box 2, and pick up the puck from box 1 as you balance on one foot. Then hop out of the pattern.
5. Repeat steps 1 through 4 with all of the boxes. The first player to complete the entire pattern wins.
6. You lose a turn if your puck does not land in the correct box, if it touches a line, if you touch a line while hopping, or if your non-hopping foot touches the ground.
